Linear Landscape

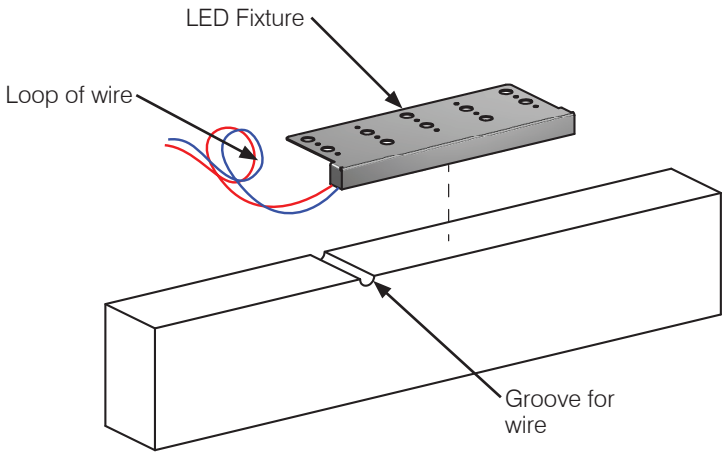
Parts
LED Fixture x 1
(Mounting Bracket with Light Source Module)
Waterproof wire nuts x 2

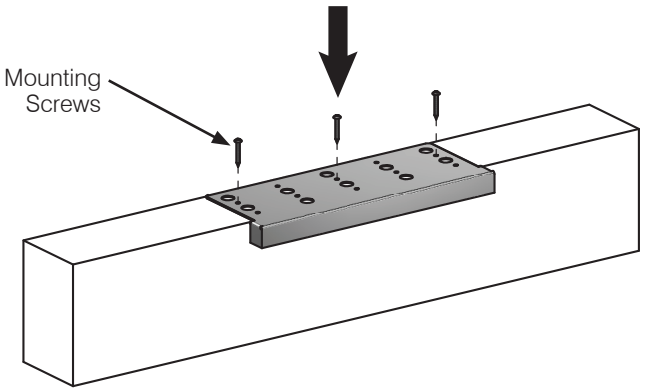


1) Determine desired location for each fixture before mounting.

2) Cut a groove into the stone or mounting surface to allow room for the wires. Leave a loop of wire for possible relocation of fixture.

**Note - Insert a protective tube (Not provided) or sleeve to cover the wire.*

3) Use the following options to secure fixture onto stone or surface.



*Option A - Secure fixture with screws (Not provided).

*Option B - Use adhesive or mortor (Not provided) to secure fixture. Use weight of block to hold it down.

4) Connect fixture wires to remote driver using waterproof connectors.

*Power to remote driver must be off while wiring LED fixture to driver.

**Note: If service is required LED Rail can be removed from spring clips.
